IN THE SPECIFICATION

Please replace the paragraph at page 8, lines 8-14, with the following rewritten paragraph:

It is assumed that the user of the freight tracking information management system signs a contract with a manager of the freight tracking information management system to handle FDF PDF-formatted image data as being substantially identical with the original document indicated by the corresponding image data. Then, it is supposed supposing that the manager of the freight tracking information management system operates based on the presence of this contract as a precondition.

Please replace the paragraph at page 8, lines 15-18, with the following rewritten paragraph:

Moreover, in the freight tracking information management system, <u>a</u> security setting for protecting against tampering, such as <u>a</u> read-only setting and the like is provided to <u>the</u>

FDF <u>PDF</u>-formatted image data that the freight tracking information management system generates.
